Who We Are

We are a Northwest MSDC security solution provider specializing in remote Access Control System.

Our Core Competencies

- Access Control for Critical Infrastructures and Remote Areas
- Premier Authorized Reseller of CyberLock
CyberLock is an innovative lock system that easily converts existing mechanical locks into an access control system. With CyberLock, you can create a powerful system to track and control access to every lock in your facility.
- Scalable Solutions: Capable of Managing Projects of various sizes and complexities.
- Highly innovative and forward-thinking.

Who Will Benefit From CyberLock

- NERC / CIP Compliance Departments
- Substation Performance
- Intelligent Grid
- Advanced Metering System (AMS)
- Cell Sites and Network Operations
- Corporate Security
